

Other Conditions Applying to the 2011
Free Use Fuelwood Permit
Tusayan Ranger District, Kaibab National Forest

This permit is for the removal of **dead and down wood only** from within the permit areas shown on the attached map. Cutting areas are also signed on the ground and have orange painted trees marking the boundaries of the area. All of these areas were cut to thin the forest to improve forest health. The wood that is available is from these thinnings. Areas may have ponderosa pine, pinyon pine, and/or juniper that has been cut. Any of these species may be taken as long as the wood is within the area and down on the ground. Other conditions that apply to this permit:

1. This permit is not transferable. You must be present when the wood is being cut unless you have authorized someone to cut your wood for you. This authorization must be in writing on the permit and the Forest Service must be informed.
2. **Off road travel will be prohibited in most areas once Tusayan's Travel Management (TMR) policy is implemented.** Contact the Tusayan Ranger District office at (928)638-2443 on **August 1st** for an update on the status of TMR implementation and to obtain a copy of the Motor Vehicle Use Map (MVUM). Prior to TMR implementation, do not drive off existing roads when soils are wet and when damage may occur.
3. Your power saw must be equipped with a .023 stainless steel spark arrestor screen.
4. **The removal record on your permit must be filled out and fuelwood tags attached prior to transporting the wood from the location where it was cut. See instructions for use of fuelwood tags.**
5. Read the conditions of your permit carefully. If you have questions, please call the Tusayan Ranger District at (928)638-2443 for assistance prior to gathering firewood.
6. Do not scatter piles to collect firewood.
7. Wood gathered under this permit **may not be sold.**

A cord of wood measures 8 feet long, 4 feet high, and 4 feet wide.
